SUMMARY

Full Stack Developer with 4 years of experience delivering end-to-end mobile and web applications. Proven track record in building applications from concept to production and optimizing system performance. Skilled in client collaboration and agile delivery. Enthusiastic about scalable architecture, clean code practices, and solving real-world business problems.

SKILLS

Front End Languages & Frameworks: Flutter, React-Native, angular js, React js, JavaScript, TypeScript, HTML, CSS, Dart, Python

Back End: Node.js, Nest.js, GraphQL, RESTful APIs

Database: MongoDB, PostgreSQL, MySQL, Firebase Firestore

DevOps & Tools: AWS, Azure, Git, GitHub, GH Actions, Docker, CI/CD, XCode, web design

AI & Automation: MCP Integrations, AI Agents, Task Orchestration, OpenClaw,

WORK EXPERIENCE

Full Stack Developer | XISLABS | October 2021 - Present

Location: Lahore, Pakistan (Oct 2021 - Dec 2024) | Remote, UAE (Dec 2024 - Present)

- Designed the architecture and full stack setup for an **ERP software**, including mobile apps and web app in **Flutter** and back end in **Nest.js**. (**IOS, Android, Web**)
- Developed a tablet-based **POS** application for Saudi client Fatoraty using **Flutter**, Dashobard on **React.js**. (**Android, Web**)
- Built **TTMIK(50K+ Downloads)** app for a Korean client in **React Native**, delivering a modern UI and efficient application logic. (**IOS & Android**)
- Built a **Task Orchestration Platform** that assigns **OpenClaw agents** and automates **CRM** workflows.
- Worked with a major UK university, developing **Node.js** APIs, integrating **third-party** services, and managing **AWS** serverless deployments using a **microservices architecture**.
- Worked with a major Formula 1 racing team, setting up a **Nest.js** backend with **Azure** and a **Next.js** frontend, contributing to a website rebuild and merchandise store redevelopment.
- Conducted **code reviews**, enforced best practices, and collaborated with cross-functional teams to ensure high-quality, maintainable code.
- Actively participated in **pair programming** and **Agile ceremonies**, improving team efficiency and project delivery speed. Gained and used **project management skills**
- Tracked tasks and collaborated using **JIRA** in **Agile/Scrum sprints**.

PROJECTS [\(see more\)](#)

- SpotyPharm:** B2B pharmaceutical App
- Major Formula 1 Team:** Store and F1 section rebuild
- XPOS ERP:** All in one **ERP** software for all business
- Find My Spot:** Parking Entry/Exit system using **NFC**
- Firmament:** Task Orchestration Platform.
- Fatoraty POS:** Retail & **POS** system App.
- Smart Wedding:** Event Management App
- TTMIK:** Education & Learning App.

EDUCATION

Bachelor of Science in Computer Science | University Of South Asia, Pakistan | 2020 - 2024

- Modules:** Programming Fundamentals, Data Structures and Algorithms, Operating Systems, Database Systems, Artificial Intelligence, Mobile Application Development, Compiler Design.
- Capstone Project: Parking Management System** - A system with **NFC** card scanning, an admin web platform, and a role-based mobile app for customers and managers.

EXTRACURRICULAR ACTIVITIES

- Brainiac Participant:** Participated in the Brainiac Programming Challenge at the International Conference on **Open Source** in 2022, where I demonstrated my **problem solving** and coding skills in a competitive environment.
